

# Face Recognition

## Access Control

Only the faces saved in the access database can be recognized and have the authorization to access the restricted area.

## Face Searching

Search the targeted face among a large crowd of people to help the authorities catch the target they want.

## Deep Learning

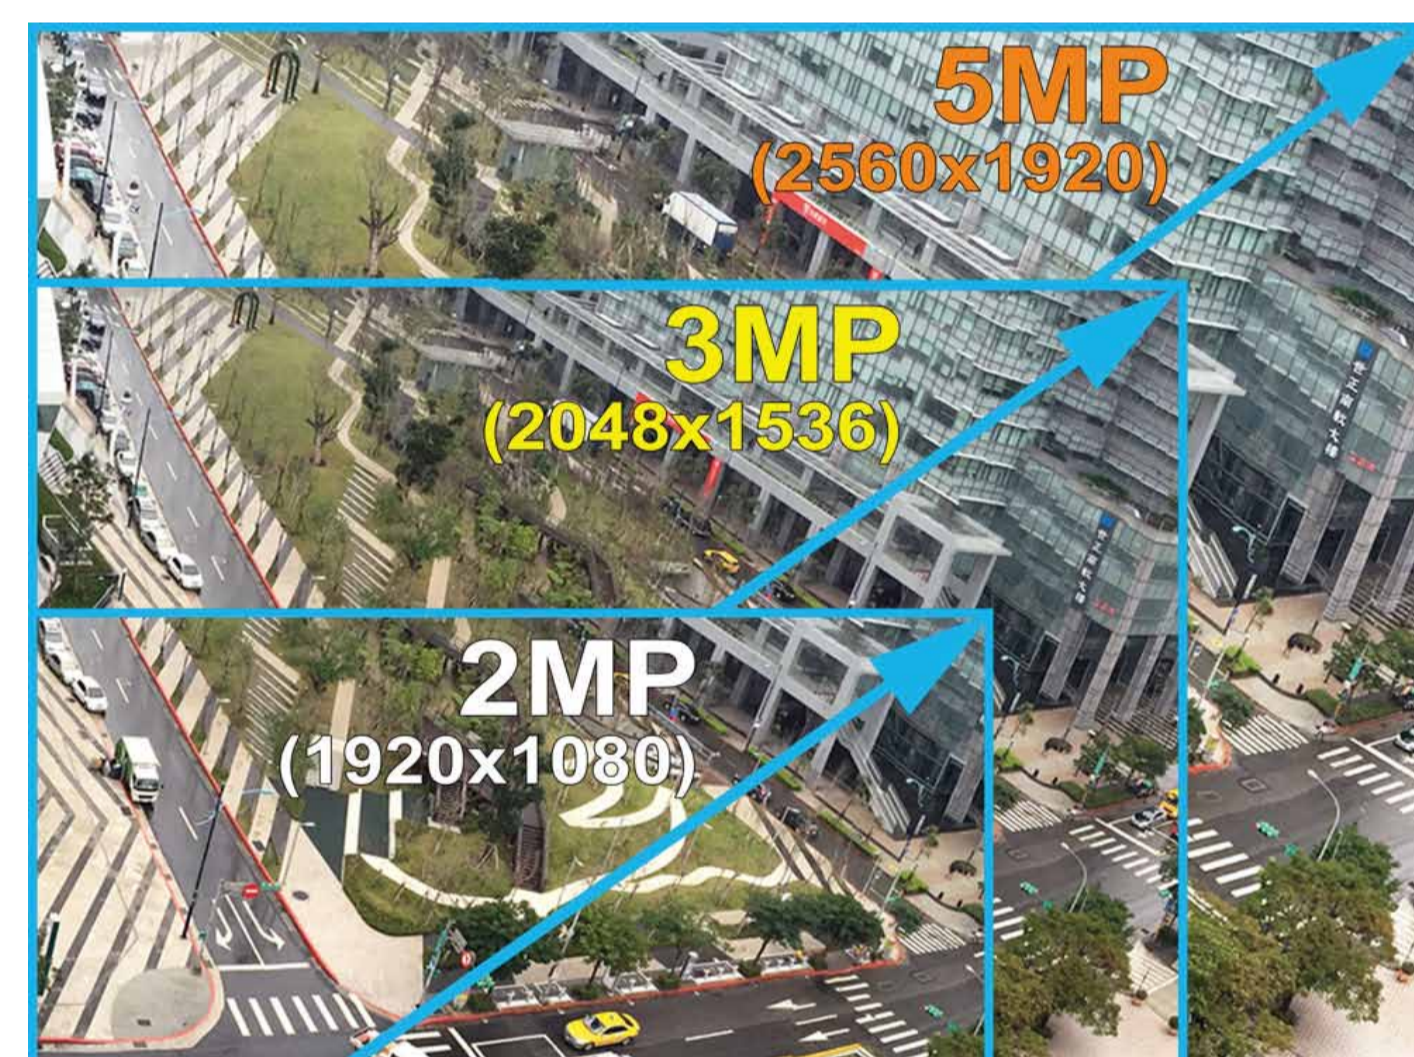

The cameras are designed to learn from each mistake and increase the accuracy to identify whether a subject is a person or dog, and the person's age and gender.

## Wireless Solution

AVTECH's new wireless solution includes not only wireless IP cameras but also wireless recorders to save all the troubles of cable arrangement and get efficient installation, especially suitable for middle-sized shops.

## H.265 Solution

To get superb image resolution and quality, AVTECH 3MP / 5MP IP solution has all you can expect. It supports H.265, H.264 and MPEG4 compression formats and is able to deliver 30fps@3MP / 5MP resolution for live display and recording.

## PUSH VIDEO

When an event is detected, the recorder will immediately send an event notification to your mobile device within five seconds, and meanwhile, EagleEyes, the mobile surveillance app will be activated automatically for remote video playback.
