# CMS: Event-Trigger-Action

- When an event occurs, PTZ camera moves to the preset position
- Event shows on the E-Map with audio alert

The screenshot displays the AVTECH CMS interface. On the left is a 'Device List' sidebar. The main area features a table with columns for 'Building 1' through 'Building 5' and rows for floors 1 through 20. A red circle with the number '1' highlights the 'Building 5' column. Below the table is a PTZ camera view showing a street scene with cars. A red circle with the number '2' highlights a green dashed line on the E-Map, which is a floor plan showing rooms like 'WALK IN CLOSET', 'VANITY', '3/4 MASTER BATH', 'MASTER BEDROOM', 'BEDROOM #1', 'CLOSET', and 'HALLWAY'. A red arrow points from the camera view to the E-Map. A cartoon character is also visible in the bottom right corner of the camera view.
